You may or may not be familiar with torrents. But, either way, it's a lot easier to download any program from torrents than directly from websites. Download any software You will need a torrent client. Here are some of the best free ones: • Azureus • BitTorrent • Rtorrent • Deluge • Transmission Download any software So, let's say you want to download a game. Instead of searching through hundreds of websites, searching for a torrent file, downloading it, and then installing it, you can download a torrent file directly from a torrent site. Most websites that offer torrents are free to join. But, you will have to register to access the files. Also, there will be a form that you have to fill in to sign up. It will usually require you to enter your email address, your name, your city, and your country. Once you are signed up, the next step is to locate the game that you want to download. You can do this in two ways. Method 1 Visit the torrent search engine of your choice. Start typing in the search box the title of the game you want to download.
